Travel Grants Available to Student Chapters:

**AAPG/SEG Student Expositions**
The Student Expo is a unique event for linking geosciences students with industry recruiters. Students benefit by networking, sharing their resume, presenting their research, and interviewing with multiple employers. Companies enjoy cost-efficient and timely recruiting from a diverse and talented student population. Students who graduated within the last two years may still participate in this event. Geosciences faculty members are encouraged to attend.

**SEG/Chevron Student Leadership Symposium**
The SEG/Chevron Student Leadership Symposium (SLS) offers travel grants to students who are currently active officers of an SEG Student Chapter. Students receiving the SLS travel grant award will participate in a two-day focused leadership program. Travel grants will cover the expenses for travel, lodging, and registration to SEG's Annual Meeting. The 2014 SLS will be held 25-26 October at the 2014 SEG Annual Meeting in Denver CO, USA.

**SEG/ExxonMobil Student Education Program**
The SEG/ExxonMobil Student Education Program (SEP) include lectures and exercises efficiently delivered/conducted and directly related to geoscience/geophysical work performed in the oil industry. ExxonMobil will provide course materials, team exercises, and instructors. Accepted applicants will be assigned to the SEP occurring in their geographical region. Applicants must be pursuing a master's degree or PhD in the Geosciences (Consideration will be given to highly qualified undergraduate students pursuing a bachelor's degree.).

**SEG Foundation Annual Meeting Travel Grants**
Students must submit a paper through the SEG Technical Program for the 84th SEG Annual Meeting in Denver, CO, USA, October 2014, to be eligible to apply.

Other Student Chapter Opportunities Include:

**Challenge Bowls**
A quiz contest where teams can compete on a world stage to demonstrate the depth and breadth of their geophysical knowledge. A global series of regional contests leading to an annual International Grand Championship to be held in conjunction with SEG's International Exposition and Annual Meeting.

**Discounted Software and Learning Courses from Our Website**

**Event Listing on the SEG Website**

**Field Camps**
Provides critical funding for projects that further the professional development, student support, and youth outreach goals of the SEG Foundation.

**Geoscientists Without Borders®**
Benefits disadvantaged communities by providing funding to serve those in need through targeted applications of geophysical technologies. GWB energizes students by introducing them to the broad range of careers in applied geosciences.

Host an **IGSC Conference**
To gather more information about becoming a host, please email sep@seg.org.

Host an **SEG Distinguished Instructor Short Course** or an **Honorary Lecture Program**
Email ce@seg.org for more information.
**Student Chapter Book Program**
Provides one copy of every book published annually by SEG to be used in the Student Chapter library. Books are donated by Fred and Kathi Hilterman, sponsored by Geokinetics Inc.

**Travel Grants**
SEG Travel Grants help defray the cost of your travel, accommodations, meals, and incidental expenses. SEG provides several different grant opportunities through our SEG student programs.
